-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. Claims 1 – 33 are pending.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Group I, claim(s) 1 – 5, 17 – 18, 25 – 26, and 33, drawn to recognition of a second unit device in a removable device initiated by an auto-starting program conditioned by optional authentication.
- II. Group II, claim(s) 6 – 16 and 19 – 24, drawn to accessing partitions of memory in a removable device as separate unit devices.
- III. Group III, claim(s) 27 – 30, drawn to auto-starting from a removable device and displaying a web page.
- IV. Group IV, claim(s) 31 – 32, drawn to logging into a web server from a client system using a relay server.

3. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I is drawn to recognizing a second unit device in a removable device initiated by an auto-starting program conditioned by optional authentication that lacks the partitions of memory of Group II, the web page of Group III, and the logging into a web server and relay server of Group IV.

Group II is drawn to accessing partitions of memory in a removable device as separate unit devices that lacks the second unit device in a removable device and optional authentication of Group I, the web page of Group III, and the logging into a web server and relay server of Group IV.

Group III is drawn to auto-starting from a removable device and displaying a web page that lacks the second unit device in a removable device and optional authentication of Group I, the partitions of memory of Group II, and the logging into a web server and relay server of Group IV.

Group IV is directed to logging into a web server from a client system using a relay server that lacks the second unit device in a removable device and optional authentication of Group I, the partitions of memory of Group II, and the web page of Group III.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
